

Fiber Bundle Breakout Kits

Make sound terminations of FutureFLEX® Fiber Bundles using Sumitomo Electric Lightwave's (SEL) Fiber Bundle Breakout Kits. The breakout kits are easy to load and provide permanent protection due to the fibers being transitioned from the fiber bundle to the individual color-coded 900 μm furcation tubes. Each tube provides ample length for proper routing regardless of the enclosure. Coupled with SEL's Lynx-CustomFit™ Splice-On Connectors, the furcated fibers can be terminated directly to the specified connector type to yield an appearance equivalent to a factory finish.

FT72FBK-12SU

BENEFITS

- Protects Transitioning Fibers
- Color-Coded 900 μm Furcation Tubes Allows for Easy Identification
- Identifier Sleeves Provide Additional Identification of Breakout Sub-Units
- No Special Tools Required

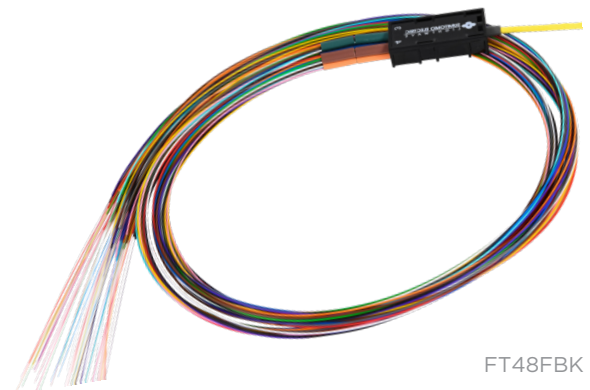

FEATURES

- Tapered Bushings Used to Buffer FutureFLEX® Fiber Bundles
- Directly Terminate through Lynx-CustomFit™ Splice-On Connectors
- Achieves Exact-Length Cable Builds
- Shrinkable Identifier Sleeves
- Variety of Fiber Count and Fiber Type Options

QUICK SPECS

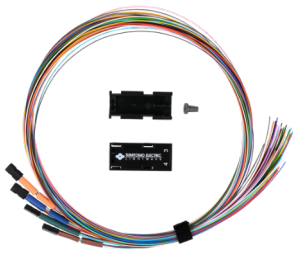

FIBER
COUNT**6-72**FIBER
