Hyperscale eXchange (HSX)

ITEM NUMBER

HDFOC-X-FRM-STC; HDFOC-X-FRM-SK1

DESCRIPTION

The Hyperscale eXchange is a high density optical cabling cabinet solution that includes practical cable management. With built in cabinet side doors, users will have further access to manage cable entry & departure. This will provide an easier means to latch cables & breakout kits to the 14 lacing bars available within the cabinet. This large capacity but compact frame will allow up to 20,736 fibers that will provide the needs for small or large data centers. The HSX comes with two options for solutions. The first is to have cabinet filled with seventy-two 288f splice trays. The second option is an empty cabinet and the user's choice for the number of 288f splice trays. As a result growing users will be able to leave room for expansion.
