

PrecisionFlex™ Splice Tray & Holders

Sumitomo Electric Lightwave's PrecisionFlex™ Splice Trays & Holders presents a solution that answers the needs for a dynamic space for cable logistics within a single racked panel. Providing a stackable splice tray & holder that can contain 144 fibers at 1RU panel while also maximizing the fiber amount to 576 at 4RU panel, this solution is made to be compatible with all PrecisionFlex™ Sliding Patch Panels. If there is a need for flexibility in a fiber rack panel, Sumitomo Electric Lightwave's PrecisionFlex™ Splice Trays & Holders is an ideal choice for any data center, storage area network (SAN), and local area network that keeps fibers protected & easy to manage when installing or trouble shooting.

FEATURES & BENEFITS

1. Flexibility of Space for Fibers & Cords

- Splice trays can accommodate up to 12 x 12ct. ribbon splices (144 fibers).
- Stackable splice trays.
- Flexible positioning for splice tray holder chip.

2. Cable Routing Space

- Plenty of space for fiber patch cable manipulation & organization for routing.
- No pinch points equals no damage.

3. Fiber Management

- 4 fiber entry/exit points.
- Generous quantity of tie down slots make secure fiber management easy.

4. Other Features & Benefits

- Excellent transition point from cable to interconnect & adapter panels
- Velcro Straps to hold all Splice Trays together.
- Durable Black Powder Coated Aluminum.
- Clear plastic top.
- RoHS, REACH, California Proposition 65, & Conflict Minerals Compliant.
