# FTWM-08L Wall Mount Enclosure

Providing a clean and protective enclosure for fiber optic cable is important. Sumitomo Electric Lightwave's FTWM-08L Wall Mount Enclosure provides a wall mountable metal cabinet solution that is easy to install and route for a variety of cable constructions including ribbon, loose-buffer & tight-buffer. Having a fiber capacity of 192 or the ability to hold up to 8 FOX Splice Cassettes, LGX cassettes or adapter modules, the Wall Mount Enclosure is a good solution to house the transition of outside plant cables and indoor distribution cables. In addition its low profile allow for convenient placement in multiple locations.
