SUMITOMO ELECTRIC
LIGHTWAVE

FTWM-08L
Wall Mount Enclosure

Sumitomo Electric Lightwave's FTWM-08L Wall Mount Enclosure provides an indoor wall-mountable metal cabinet solution that is easy to install and route for a variety of cable constructions, including ribbon, loose-buffer, tight-buffer, and Air-Blown Fiber®. Having a fiber capacity of 192 or the ability to hold up to 8 FOX Splice Cassettes, LGX cassettes, or interconnect panels, the Wall Mount Enclosure is a good solution to house the transition of outside plant cables and indoor distribution cables. In addition, its low profile allows for convenient placement in multiple locations.

FEATURES

- durable aluminum frame
- dual padlock eyelets
- removable dual-hinge doors
- 8 LGX panel spaces and 5-tray capacity
- pre-installed splice-tray mount, riser, & cable management rings
- nonabrasive round corners
- compatible tandem door & tube-distribution unit

BENEFITS

- allows for low profile
- space for cable slack
- ability to independently lock either side of demarcation for security
- riser allows clearance for fiber routing
- removal tray mount and management fings allows for cassettes to be used
- knock-out access point available for back entry
