

1RU LGX Compact Patch Panel

Sumitomo Electric Lightwave's 1RU LGX Compact Patch Panel is designed for applications with limited space and requiring hardware with an efficient and small-scale footprint. This panel has the ability to accommodate up to 3 LGX format components, such as PrecisionFlex® FOX Splice Cassettes, MPO Cassettes, or Interconnect Panels. Its design includes built-in cable management routing and securing features, including a lacing bar in the rear and bridge lances in the front. Port identification is made effortless with a slide-out label tray that can be conveniently accessed under the front ledge.

BENEFITS

- Easy Ability to Keep Track of Ports
- Applicable for Limited Spaces
- Efficient and Provides Small Scale Footprint
- Help to Manage Connectivity Cordage
- Works Well With LGX Compatible Components Such as the PrecisionFlex® FOX Splice Cassettes, MPO Cassettes, and Interconnect Panels

FEATURES

- Compact Design
- Slide-out Label Tray for Port Identification
- 3 LGX Compatible Faceplates Spaces
- Lacing Bar to Secure Cables
- Bridge Lances
- Mounts in 19-in Rack

APPLICATION & RECOMMENDED USE

PRECISIONFLEX® FOX SPLICE CASSETTES & LGX OPTIONS

- Eliminates the Need for Splice Trays, Fanout Kits & Interconnect Panels
- Extremely Flexible Design
- Clear Top to See All Components Inside
- LGX Footprint

FIBER OPTIC CABLE

- Standard Flat Ribbon Cables; Pliable Freeform Ribbon™ Cables; Loose Tube Cables
