

Dust-Tight Strain-Relief Kellems Grips

Sumitomo Electric Lightwave's Dust-Tight Strain-Relief Kellems Grips provide a way to effectively seal and anchor the end of a tube cable to a tube distribution unit entry point within an indoor location. The tube cable is held firmly in place, while providing the needed strain relief. The grips will also provide protection from dust and dirt entering the enclosure.

FEATURES

- Dust-Tight Strain Relief
- Bushing Protects From Dust and Other Particles
