

3RU Rack-Mounted Splice Enclosure: FSPRM-03-K672SS (Single-Fiber Splice Version)

Sumitomo Electric Lightwave's (SEL) 3RU Rack-Mounted Splice Enclosure (FSPRM-03-K672SS) is a high-density rack-mountable fiber splice solution. The enclosure can be used as the transition point between the outside plant cables and indoor distribution cables, a transition point between larger and smaller cables throughout a facility, or directly spliced and routed to panels mounted underneath. Holding a capacity of 168 single-fiber splices per tray for total of 672 fibers, this splice enclosure fits indoor 19-in locations.

FSPRM-03-K672SS

FTHFC-IMST168SS

BENEFITS

- Large splice trays for ease of use and storing fiber slack
- Individual access to each splice tray
- Ability to hold additional fiber slack
- Durable frame protects loose fibers
- Excellent transition point from cable to cable

FEATURES

- Fiber capacity: 672 single-fiber splices (4 trays x 168f/tray)
 - For pigtail splicing application, 168 splice capacity only with 1.6mm or smaller cord O.D.
- Rack mounting brackets allow for installation on 19-in racks
- Built-in cable slack and routing for easy access
- Pre-installed and removable back lacing bars
- Sliding splice trays
- Removable front door
